President's Paragraph

by BARBARA WHITLOCK

Lots of activities in April to keep us busy. Ray and I are back from our journeys of March and I hope to see you at these fund-raisers.

Let's leave the "D" out and call them "FUN-RAISERS" - because that is what they become working alongside our great bunch of volunteers!

Notice the concrete parking area in front where the mud used to be!! - Notice the concrete slab in the back where grass and mud used to be!!

Great job by our VOLUNTEERS!! And soon the sheds will be up and the old garage down - - won't that make a difference!!

Our centennial is fast approaching. Names are coming in to be on the new quilt. If you have ideas, and/or want to be on the planning committee - - let me know.

Get your ticket for the "MYSTERY HISTORY" bus tour!!!

A FUN(d)-RAISER with no set-up, no clean-up or dish to make! See you on the bus!

FINANCIAL NEWS

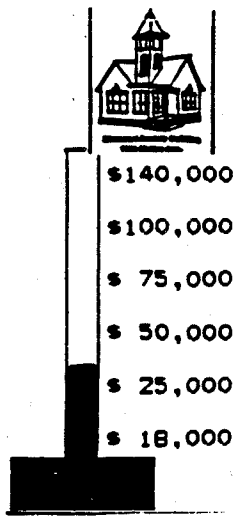

by ELAINE BRACK

I know that I sound the same all the time about finding different ways to gather the money that is going to be needed when we purchase the Olde Church building. The month of March was really a great month in many ways, but the many ideas that came forward generated about \$1,000.00 to be added to the building fund. I think that is GREAT!!!

All the meals that have been given were completely paid for by the preparers, therefore the entire profit went into the fund. I really must say a BIG THANK YOU from the entire Historical Society to everyone who helped to make the dinners happen for everyone to enjoy. Someone had to plan, shop, set-up, prepare, collect the money and the BIG CLEANUP!!

THANK YOU VOLUNTEERS!!

Check the thermometer - look at it climb!

the bride of Charles D. Morgan. They eventually moved to Santee, where Charlie worked as bookkeeper for the County Farm. They had 2 daughters; Arleen (Darrough of Springfield, OR) and Carol (Claussen of Visalia, CA).

CARNE SECA - (is just plain Jerky)

JERKY - the food that won the west was concocted to keep men going over endless mountain trails. The early Mountain-men dried meat to preserve it, usually smoking it over a low fire to hasten the process. The plains Indians knew the process, as did the emigrants and Forty-niners. Nearly every early diary includes a passage on how the meat from mules, oxen or game was dried in order to preserve it and make it easier to carry. The arguments will rise and fall among the purists as to which is the better--smoked or sundried jerky.

More than 2,000 years ago a traveler who had spent the night in a stranger's territory paid him for the privilege -- and one of the world's oldest professions was born -- innkeeping. The first inns were in the Orient -- a plot of ground by a stream. Later they were walled and roofed, food was served, and the true inn was born. Oldest known hotels were in Pompeii. British inns were famous -- but eventually America's became the world's finest.
